

---

This discussion should be undertaken as a group and aims to encourage participants to think about the Decade of Action Plan and EU policy orientations and how they

1. Which elements of the Decade of Action Plan are most important for road safety improvement in the country?
2. Which elements of the EU's policy orientations are most important for road safety improvement in the country?
3. What elements do these plans have in common with the national road safety plan and community road safety plan?
4. How could the international plans be helpful for improvement of road safety in your jurisdiction?
